Date:

## Process Specifications

Product				
Bulk density				t/m <sup>3</sup>
Particle size	nominal	min	max	mm
Moisture range				%
Load	nominal	min	max	t/h
Accuracy				% of max. load
Product temperature				°C / F
Ambient temperature				°C / F

## Physical Arrangement

**Belt conveyor**      flat       troughed

Belt width				mm
Belt material				
Profile section	please supply a sketch, if available			
Belt speed	nominal	min	max	m/s
Belt inclination angle				°

### Screw conveyor

Screw diameter				mm
Screw pitch				mm
Speed / RPM				
Wall material & thickness				/ mm

**Other conveying system**  (please provide a sketch)

**Free Fall Application**  (please provide a sketch)

Inner pipe diameter				mm
Wall material & thickness				/ mm
Distance start point free fall - measuring point				mm

Application (for statistical reason) \_\_\_\_\_
